Fractured Fairy Tale # 1**

Anna and Adam Chat

Once upon a time there was a girl named Anna who was playing a group game on line. On the side of the game, there were players talking with each other while they played together. It was like a chat room. The more she played, the more she met the same people. Everyone was just on a first name basis. Adam, one of the people in the chat box asked her to contact him privately and gave her his email. She emailed Adam. He said he was 13 and just looking for a friend. Anna and Adam began to email back and forth about school and friends and family. Adam told Anna that she was a funny and fun person. He gave her lots of compliments. Adam began to ask Anna about where she lived and asked if he could meet her. She told Adam she really wasn't allowed to go anywhere to meet anyone unless it was a friend from school or a relative. Adam was very insistent. He wanted Anna to also text him. He sent his picture to Anna and he did seem like a nice boy. He told Anna to meet him at the mall and just tell her parents that she was meeting one of her friends. Anna was nervous about lying to her parents.

What should Anna do?

- Can Adam use a different picture and really be an adult trying to get Anna to meet with him?
- If she lies to her parents, will they know where she is at the mall and who she is with?

Together with your classmates, discuss what Anna should do to have a happy ending to her Fairy Tale.

Be ready to share your solution with the rest of the class in a debrief.
